September 9, 2011

To whom it may concern:

Over the last three years I've worked on hundreds of projects with more than a hundred assistants. Within the area of data collection and sorting, Hermant Vakilwala skills is top tier as noted by the accuracy of the records, time until completion and ability to convert to various file types. His work is reliable, which allows for team collaboration and effective project management.

Perhaps Hermant's greatest aspect is his character. Very few are as persistent in completing the job, determined to doing the job right and take the initiative in moving the project forward. He is discrete enough to work on sensitive projects and loyal enough to plan for the long term. These character traits, along with his skills, makes Hermant invaluable to the team.

In the areas of data collection and sorting, Hermant Vakilwala will make a great asset to your team. If you need more information, don't hesitate to call me at 479 409 9009 or email me at rhemphil@hotmail.com.

Respectfully yours,

Renaldo Hemphill, Ph.D.
