

Roland van Eeden – Portfolio

About myself:

I am from South Africa. Since wrote my very first program, I realized that his is what I want to do for a living. I am almost 21 years old. I love programming and is currently working in the industry while studying at the University of Pretoria (www.cs.up.ac.za). I am a very big fan of C# and the .NET framework. This is what I am currently doing in the industry.

I am studying BIS Multimedia, which involves programming, visual design, animation and multimedia.

What I can do:

- C#
- C
- C++
- Java
- PHP
- Delphi
- VB
- .NET Framework
- ASP.NET
- Ruby on Rails
- mySQL
- MS SQL Server 2008
- HTML4/5
- Flash/Actionscript
- Javascript
- jQuery
- XML
- XSLT
- XSLT-FO
- DTD
- Schemas
- CSS2/3
- XPath
- SQL

My main focus:

I mainly work in C#, C++ and .NET. I am very good in solving problem and I am very reliable in meeting my deadline. If something new comes my way, I am willing to figure it out and to do the best I can to accomplish the task.

Previous Experience:

I am currently a junior developer in the industry. I want to try Freelancer.co.za in order to expand my experience. I did however write a few programs, systems and websites to local people. I hope by the end of this year that I can have quite a reputation to get more people to trust me in the industry. As I said, I am working in the industry part time and studying full time at the University of Pretoria. I am a 3rd year student this year and I will receive my degree by the end of 2013.

How I will expand my Experience:

I am willing to expand my experience and trust by writing the exams on Freelancer.co.za and to gain a lot of badges to show what I am made of.
